Introduction

This guide explains how to launch and play a TI-RAX training scene using the **VIROO Single Player**, the application developed under the **MASTER-XR project** that allows you to run immersive training experiences on your computer or in virtual reality. The training experience can be run autonomously on the **computer screen (Desktop mode)**, or in **Virtual Reality (XR mode)** using a headset.

Equipment

- A Windows 10 or Windows 11 computer with a stable Internet connection.
- Your MASTER login credentials (or the public credentials provided for the session).
- (Optional) A supported headset.

Hardware Requirements

Computer Requirements

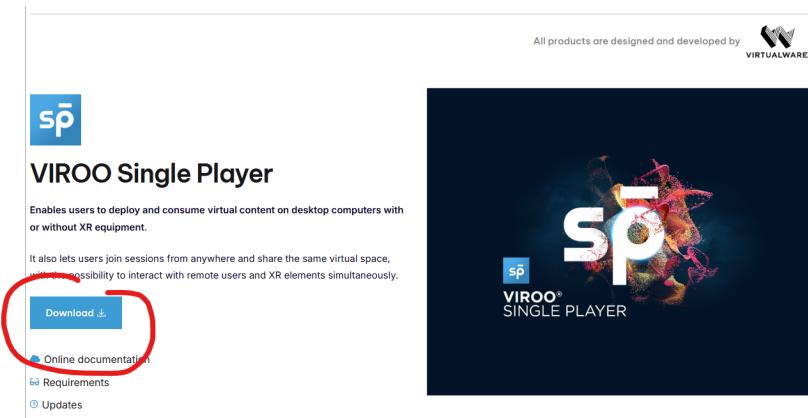

Component	Desktop (Minimum)	XR (Minimum)	XR (Recommended)
Windows Version	10 or 11	10 or 11	10 or 11
Processor	Intel i5 / AMD equivalent	Intel i5 / AMD equivalent	Intel i5 / AMD equivalent
Graphics	Basic graphics support	NVIDIA GTX 1060 or better	NVIDIA GTX 1060 or better
Memory (RAM)	4 GB	8 GB	16 GB

Headset Requirements

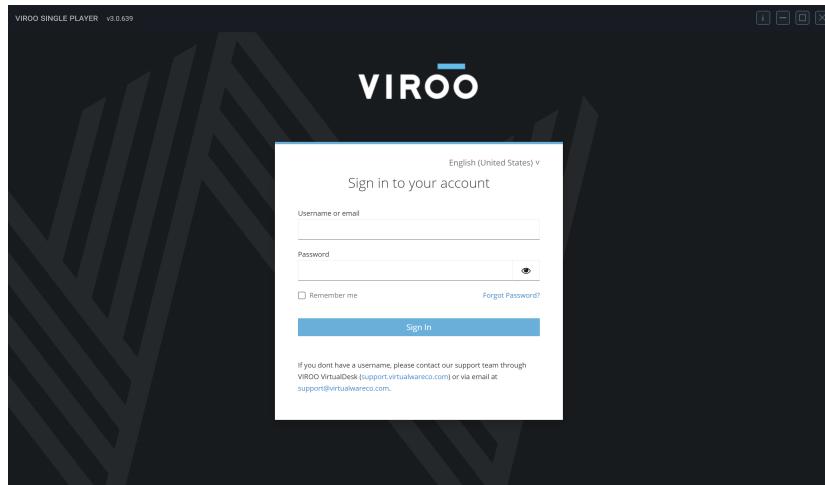

- **HTC:** Vive, Vive Pro, Vive Focus 3, VIVE XR Elite, Vive Focus Vision
- **PICO:** Neo 3 Pro, PICO 4, PICO 4 Enterprise
- **Meta:** Quest 2, Quest 3

Scene Launch Procedure

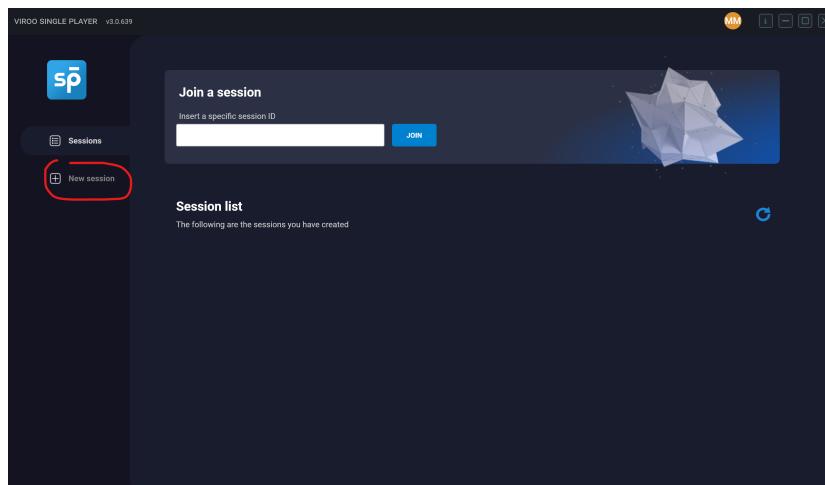

1. **Download and install VIROO Single Player.** Go to <https://viroo.virtualwareco.com/resources/players/>, then download and install the *VIROO Single Player* software.

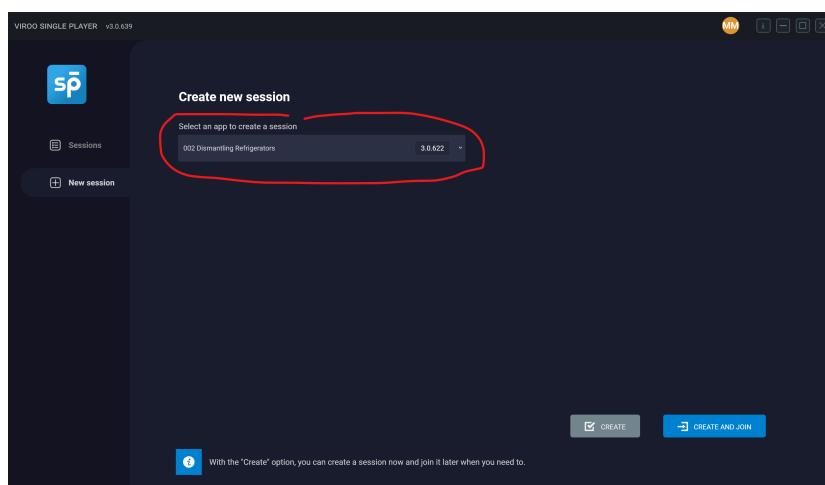

- 2. Enter the VIROO Single Player.** Open the application and authenticate using your MASTER credentials or the public credentials provided for the training session.

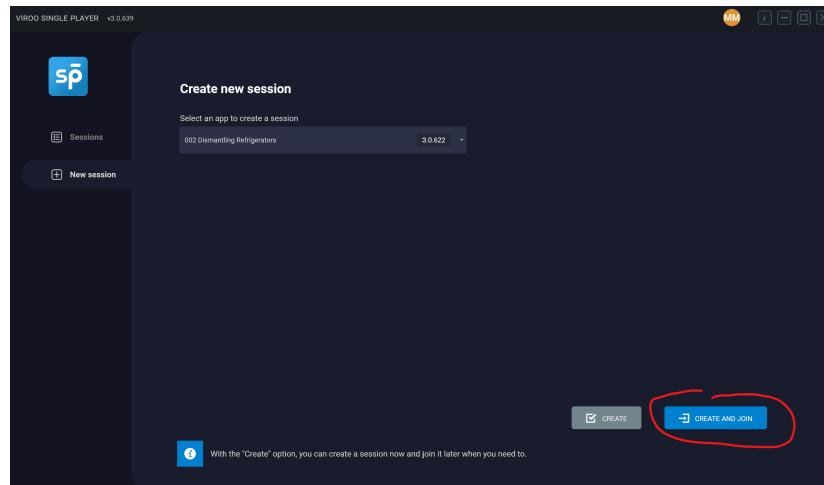

- 3. Open the New Session Panel.** From the main screen, click *New session* in the left menu.

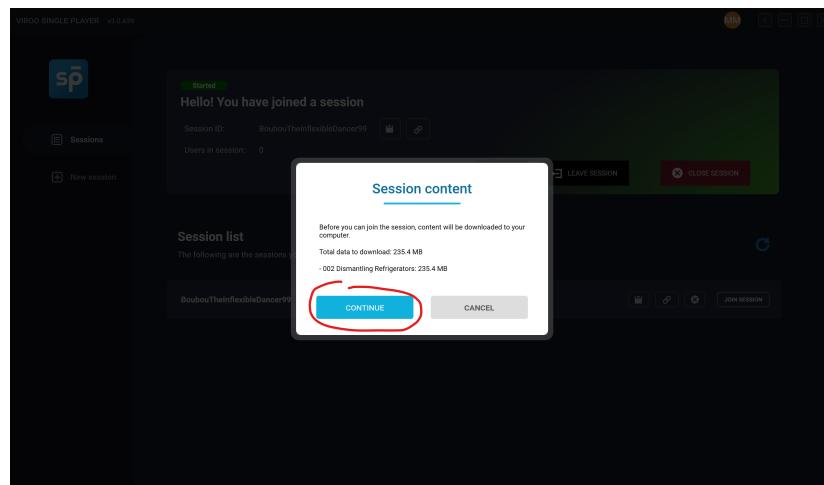

- 4. Select the Training Scene.** Choose the TI-RAX application to play with from the dropdown list (e.g., 002 Dismantling Refrigerators).

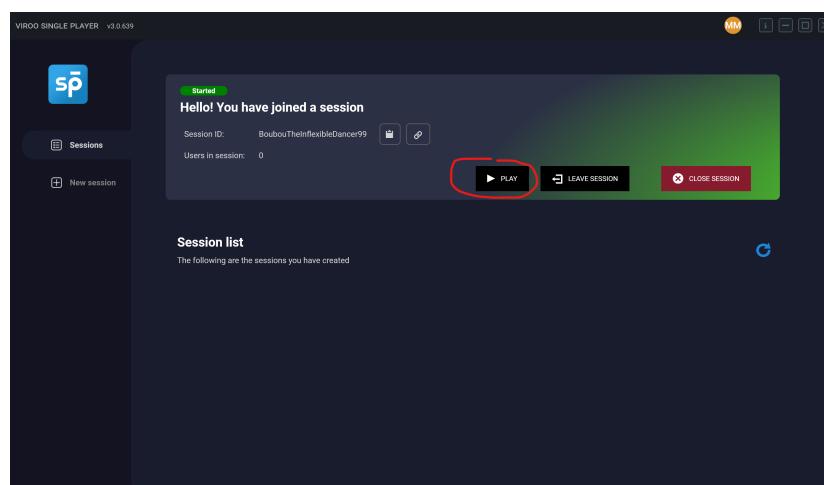

5. **Start the Session.** Click *Create and Join* to immediately create the session and enter it.

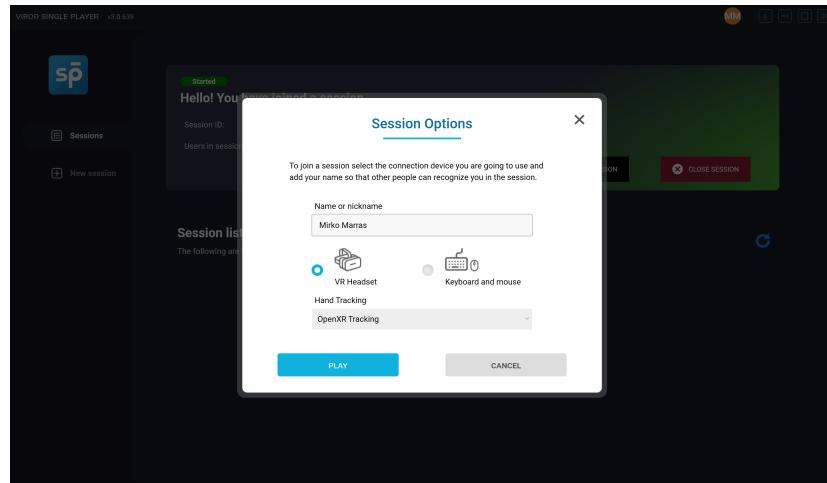

6. **Download the Session Content.** When the Session content window appears, click *Continue* to download the required files.

7. **Enter the Session.** When the session is ready, click the *Play* button to start the training experience.

8. **Choose the Control Mode.** Enter your name, choose *VR Headset* (for immersive mode), or *Keyboard and mouse* (for desktop mode), then click *Play*.

9. **Start the Training.** The virtual environment will load. Follow the on-screen instructions to complete the tasks in the scenario.
